

Terri Pace MUA - Hand Casting Information

How It Works

- Please wear old clothes.
- Decide on your hand hold in advance as this will be your final pose.
- Slowly place your hands into the bowl, taking care **not to touch the bottom or sides**, as this may require a new batch of alginate.
- Keep your hands still while in the bowl to avoid distorting the imprint.
- The alginate will gradually firm around your hands (this is normal and it remains flexible).
- After approximately 10 minutes, gently squeeze and release your hands until you feel ready to slowly remove them, one at a time, taking care not to damage the mould.

That's all you need to do, I'll take care of the rest.

Please allow up to **1 month** for completion. You will be contacted when your piece is ready for collection.
